

Overpowered & Chill

Slice-of-Life Reads for the Grandpa-Universe Mood

Built around your two favourites — **Grandpa Universe In Multiverse** (an OP, no-harem, slice-of-life god hopping through Harry Potter, GoT, Marvel, One Piece, Naruto & more) and a second multiverse pick. Not limited to Assassin's Creed. Two lanes: multiverse OP slice-of-life **fanfics** that feel just like your examples, and cozy OP slice-of-life **originals** if you want to branch out.

What you seem to like

- **Overpowered protagonist** from the start — no long weak-to-strong grind.
- **Slice-of-life / low-stakes** pacing — vibes, comfort, everyday problems solved easily.
- **Wish-fulfilment** — the fun is watching a strong, kind MC enjoy themselves.
- **No harem preferred** (their favourite, *Grandpa Universe*, is explicitly no-harem).
- **Multiverse / world-hopping** is a big plus (visiting anime & fiction worlds).

Lane 1 — Multiverse OP slice-of-life fanfics (closest match)

1. Anime Multiverse Dimensional Chat Group

WebNovel | 4.47★ • Tags: OVERPOWERED, SLICEOFLIFE, System, Comedy • No harem tag
<https://www.webnovel.com/search?keywords=anime%20%20multiverse&type;=fanfic>

Summary. A weak, overworked office worker collapses and is reincarnated as a character in an anime he'd watched—then a 'Dimensional Chat Group' notification pops up on his phone, linking Fairy Tail, One Piece, Naruto, Konosuba and more. He sets out to live life to the fullest doing everything he couldn't before.

Why you'll like it. Almost the same DNA as Grandpa Universe: OP, slice-of-life, chat-group/multiverse, no harem tag.

2. Around the Multiverse with Copy Ability

WebNovel | Tags: ADVENTURE, System, Reincarnation, COMEDY, SLICEOFLIFE
<https://www.webnovel.com/search?keywords=multiverse%20copy&type;=fanfic>

Summary. An MC travels the multiverse with a copy/steal-abilities system, picking up powers from each world he visits. Explicitly tagged slice-of-life and comedy rather than high-drama.

Why you'll like it. Copy-ability power fantasy + slice-of-life tag = relaxed OP world-hopping, your lane exactly.

3. Anime Multiverse: Starting by Teaming Up with Maple

WebNovel (CN translation) | Tags: COMEDY, OVERPOWERED, SLICEOFLIFE, CROSSOVER • has HAREM tag
<https://www.webnovel.com/search?keywords=anime%20%20multiverse&type;=fanfic>

Summary. Seito lives in a slice-of-life crossover world (Oregairu, Saekano, Kaguya-sama, BOFURI...). When a full-dive VR game fuses with reality, the first player to reach the summit rises above everyone and becomes the first god of the new era.

Why you'll like it. Very cozy OP crossover comedy—note it carries a harem tag, so skip if that's a dealbreaker.

4. Traversing the Anime Multiverse with a System

WebNovel | 4.3★ • Tags: ACTION, System, OVERPOWERED, ANIME • has HAREM tag
<https://www.webnovel.com/search?keywords=anime%20%20multiverse&type;=fanfic>

Summary. Soren dies, meets God, and wishes for a system connected to every anime in the multiverse; he then travels world to world getting stronger with the goal of becoming a god himself. (Author is actively remaking/expanding it.)

Why you'll like it. Classic wish-granted-by-God multiverse OP setup—carries a harem tag, reader's choice.

Lane 2 — Cozy OP slice-of-life originals (branching out)

These aren't fanfics, but they nail the OP-and-relaxed vibe. Great if you want polished, self-contained stories where a strong protagonist just wants a quiet life.

1. *Beware of Chicken*

by Casualfarmer | Royal Road / published • ~4.49★ (12k+ ratings) • Cozy cultivation
<https://www.royalroad.com/fiction/26294/beware-of-chicken>

Summary. A modern man reincarnates into a xianxia world as a young cultivator—and promptly walks away from the murder-y sect life to become a farmer, growing turnips and raising an absurdly large rooster. His 'power' grows from love of the land and community.

Why you'll like it. The gold standard of cozy OP slice-of-life. If Grandpa Universe was your comfort read, this is your next one.

2. *The Retired S-Ranked Adventurer*

by Wolfe Locke | Cozy progression • Tavern/inn-keeping slice-of-life
<https://www.royalroad.com/>

Summary. A powerful adventurer is done with heroics and just wants to run a decent inn. Low stakes, warm cast, the strength is a given rather than the point.

Why you'll like it. OP-but-retired energy—the MC is already strong and chooses the quiet life.

3. *Sowing Season*

by Wolfe Locke | Cozy LitRPG • Farming progression
<https://www.royalroad.com/>

Summary. A retired adventurer trades violence for farmland; the progression system rewards emotional investment in the land and the people on it. The most direct spiritual successor to *Beware of Chicken* on the market.

Why you'll like it. Same exhale-and-relax energy; strong MC, community over combat.

4. *Beneath the Dragoneye Moons*

by Selkie Myth | Royal Road • huge & ongoing • Healer-lead progression
<https://www.royalroad.com/fiction/36735/beneath-the-dragoneye-moons>

Summary. A warm, character-driven isekai following a healer whose power curve rewards empathy. Much slower and cozier than most progression fantasy, with strong slice-of-life stretches between arcs.

Why you'll like it. For when you want length + cozy character focus; MC becomes very strong over time.

5. *Battle Mage Farmer*

by Seth Ring | Published • ~5.0★ (niche) • Farming + battle-mage
<https://www.amazon.com/dp/B0C2R4S6NK>

Summary. A retired battle-mage settles down to farm, but the agricultural progression loop is central, not decorative. Inventive 'domestication' mechanics with genuine warmth.

Why you'll like it. OP mage who'd rather grow crops—exactly the low-stakes power-fantasy comfort you like.

6. *Cooking with Disaster (Grilled Armageddon)*

by Dakota Krout | Published • Culinary LitRPG • Comedy
<https://www.amazon.com/dp/B0CL5H7Z9M>

Summary. A culinary LitRPG where domestic skill becomes a superpower—the same everyday-skill-as-OP-ability energy that makes cozy slice-of-life so satisfying.

Why you'll like it. OP through cooking, comedic and low-stakes; a fun tonal cousin to your picks.
